By JOHN RUSKIN,
Author of "The Seven Lamps of Architecture," "Modern Painters," &c.

Price Two Guineas, in embossed cloth, with top edge gilt.

"'The Stones of Venice,' will assist to pave the way to the rationalism and advancement of Architecture. It is more practical than the writer's previous works, and might be called an essay on the principles of architecture. A high religious feeling pervades the volume, and it contains passages of great beauty and power."—*Builder*.

"It is a book for which the time is ripe, and it cannot fail to produce the most beneficial results on our national architecture. At once popular and profound, this book will be gratefully hailed by a circle of readers even larger than Mr. Ruskin has found for his previous works. He has so written to reach the ear of all kinds of persons."—*Morning Chronicle*.

E. WOLFF & SONS' newly-invented CRETA LÆVIS, or PERMANENT DRAWING CHALKS in cedar, in every variety of colour.—E. WOLFF and SONS beg to state that they have, by the introduction of great improvements in their CRETA LÆVIS, enabled it to be used the same as the ordinary pencils; and effects can now be produced equal to water-colour drawings, without the use of water or any other fluid; the various colours blending together with perfect harmony, beauty, and richness. It can be cut to a fine point, and is thus capable of giving a very delicate outline. For sketching from Nature, the great advantages resulting from the adoption of the CRETA LÆVIS must be obvious, as, without the use of water, palette, brushes, &c., all the various tints can be obtained with a truthfulness that cannot be surpassed, and by their compact form may be carried any distance without the slightest inconvenience; thus superseding every other method in general use. The drawings may be carried in a portfolio with safety, as, unlike other crayons, they will neither rub off nor suffer injury by coming in contact with the usual contents of a portfolio. The CRETA LÆVIS, unlike the indelible or wax crayons, WILL NOT BE AFFECTED BY HEAT OR CHANGE OF CLIMATE.—E. WOLFF and SONS' IMPROVED CRAYON PAPER is the best for the CRETA LÆVIS. To be had of all Artists' Colourmen and respectable Stationers, in leather boxes, containing sets of 12, 18, 24, or 36.—A Pattern Card, containing the whole of the shades and colours of the CRETA LÆVIS, with their names and numbers attached to each shade, price 1s. each. CAUTION.—As there are several spurious imitations, it is necessary to observe that every Pencil is stamped, "CRETA LÆVIS, E. WOLFF and SONS." London, with name of the colour.—Creta Lævis Drawings lent to copy at C. B. CLIFFORD'S, 20, Piccadilly.
